INTERNATIONAL SYMPOSIUM "SCIENCE, ETHICS AND HUMANISM IN THE FIGHT FOR SOCIAL JUSTICE, SUSTAINABLE DEVELOPMENT AND PEACE"

Fifth International Conference FOR WORLD BALANCE

Convention Center, Havana Cuba

January 24-28, 2023

As part of the scientific program of the V International Conference FOR WORLD BALANCE, to be held in Havana, from January 24 to 28, 2023 organized by the *José Martí International Solidarity Project*, delegates to this event will also be able to participate in the Symposium "**Science, ethics and humanism in the fight for social justice, sustainable development and peace**" sponsored by the Cuban Academy of Sciences.

Within this framework, scientists from all branches of knowledge, professors, teachers, social activists and good will people are invited to contribute to the development of knowledge about nature and society, to plural and multidisciplinary thinking, and to raise awareness about the important role of science, technology and innovation in solving pressing problems facing humanity nowadays.

Topics that can be analyzed from various disciplinary perspectives and from national or local experiences can be addressed at the Symposium, as the following:

- Interrelation of Science, ethics and humanism: the present and futures challenges .
- Science, Technology and Innovation in the dialogue of civilizations. Science for peace at the center of solidarity among peoples and nations.
- Scientific diplomacy in favor of respect for international agreements and peaceful coexistence.
- Role of the Academies of Sciences in the preservation of life, international solidarity and the integration of peoples. Contributions of scientific thought to the historical memory of countries.

- Science, Technology and Innovation in public policies.
- The current era and the convergence of multiple crises: The concept of health for the preservation of life.
- The destruction of Nature and current environmental problems: the preservation and sustainable services of natural resources.
- Science of Sustainability and its role nowadays.
- Experiences of confronting the COVID-19 Pandemic. The Post-COVID era: challenges and role of Academies of sciences.
- Food and nutrition security, sustainable development and social justice.
- Advances in information and communication technologies (ICT) and its ethical use in social media.
- Science and Education in the context of human rights in the 21st century.
- Science in the fight against all forms of discrimination and social inequality.

Participation in the Symposium includes the modalities of speaker and participant. In any of the two statuses, the person will also be considered a DELEGATE to the V Conference and will have the right to be present in all the commissions, master conferences and other scientific spaces of the program of that conclave, as well as in the planned cultural and parallel activities. At the same time, you will receive a diploma from the Organizing Committee of the V Conference with the corresponding academic credits, according to international standards.

Registration of participants and speakers

The inscriptions of those interested in taking part in one or another modality can be made directly to the Organizing Committee of the Symposium or to the Organizing Committee of the V International Conference FOR WORLD BALANCE whose call is attached.

The official languages of the event are: Spanish, English and Portuguese. There will be simultaneous translation in plenary.
